COUNCIL	DATE 26th February 2026	ITEM NO 9
TITLE Budget and Council Tax Setting 2026/27	**WARD(S)** All	
CHIEF OFFICER Director of Resources	**CABINET MEMBER** Finance, Resources and Social Value	
DECISION CLASSIFICATION Key Non Exempt report and appendices Not subject to call in	**IS THE FINAL DECISION ON THE RECOMMENDATIONS IN THIS REPORT TO BE MADE AT THIS MEETING?** Full Council on 26th February	

1. Decisions Required

Council is requested to recommend to Council to agree:

1.1 that the Council budget for 2026/27 as set out in the report be approved

1.2 a 2.99% increase in the borough element of council tax in support of service delivery pressures

1.3 an Adult Social Care precept of 2%

1.4 the addition to the council tax in 2026/27 on the taxpayers in premises surrounding the garden in Gloucester Circus SE10 (Section 4)

1.5 the overall council tax level and the relevant statutory calculations and resolutions (Section 4 and Appendix B)

1.6 the schools funding formula for use in 2026/27 as presented to Schools Forum on 14 January 2026 (Section 5)

Council is requested to note:

1.7 the overall additional cost of 146p per week at Band D (Section 4) of decisions 1.2 and 1.3.

1.8 that the GLA precept for 2026/27 is due to increase by 4.1% (39p per week at Band D) (Section 4)

1.9 the level of Dedicated Schools Grant for Education purposes and that the budget proposals for 2026/27 were agreed by the Schools Forum on 17 December 2025 (Section 5)

1.10 the comments on financial standing, future risk and robustness of the budget process (Section 6)

1.11 that it shall have regard to the s151 / Chief Finance Officer's statement in Section 6, as required under s25(2) of the Local Government Act 2003, when making decisions in this report

2. Links to Our Greenwich missions

2.1 This report sets the Council Tax for 2026/27 to help deliver Our Greenwich missions.

2.2 The report should be read in conjunction with the Medium Term Financial Strategy (MTFS) and Treasury Management and Capital Strategy reports that are scheduled for consideration by Council on 26 February 2026. These reports give a detailed analysis of relevant links to Our Greenwich Missions.

3. Purpose of Report and Executive Summary

3.1 The report enables members to determine the budget for the authority for 2026/27 and in doing so, consider spending requirements and how they are to be financed. The report should be read in conjunction with the Medium Term Financial Strategy (MTFS) and Treasury Management and Capital Strategy reports that are scheduled for consideration on the same agenda.

3.2 The report proposes a headline borough council tax rise of 4.99%.

3.3 The structure of this report is set out in Table 1.

App A2	Council Tax levels 2008/09 – 2025/26 (Band D – borough element)
App B	Statutory Calculations and Resolutions

4. Introduction and Background

Council Tax

Maximum Increases and Referendum Principles

4.1 The ability to raise council tax before a referendum is 2.99% in 2026/27, the same as in 2025/26. In addition, authorities can levy an Adult social care precept of 2% in 2026/27, the same level as in 2025/26.

Funding Framework

4.2 A fundamental review of local authority financing was carried out during 2025 which now includes multiyear settlements from 2026/27 for 3 years. The underlying assumption for Council Tax within Local government funding is that council tax is expected to increase by 4.99% per annum during this period. The proposed increase in council tax this year provides an opportunity to build upon the investments made by Greenwich and build some financial resilience into services.

Borough Element of Council Tax

4.3 The period since 2008/09 has seen long periods of freezes in the borough element of council tax, during times of low inflation.

4.4 In 2025/26 the majority of London boroughs raised the borough element of council tax by either the maximum amount or close to it (i.e. 2.99%).

4.5 In terms of the overall direction of travel for council tax across London, Greenwich (Table 3) remains in a relatively good position:

- 11th lowest borough element of council tax in 2025/26 (Appendix A1)
- 17th lowest rise for the period 2008/09 to 2025/26 (Appendix A2)

Table 2 – Royal Borough of Greenwich Element of Council Tax 2025/26

Valuation Band	Borough Element £
A	1,014.17
B	1,183.20
C	1,352.23
D	**1,521.26**
E	1,859.32
F	2,197.38
G	2,535.43
H	3,042.52

4.6 In respect of the period since 2008/09, it is worth setting this in context of the cummaltive inflationary impact over that period.

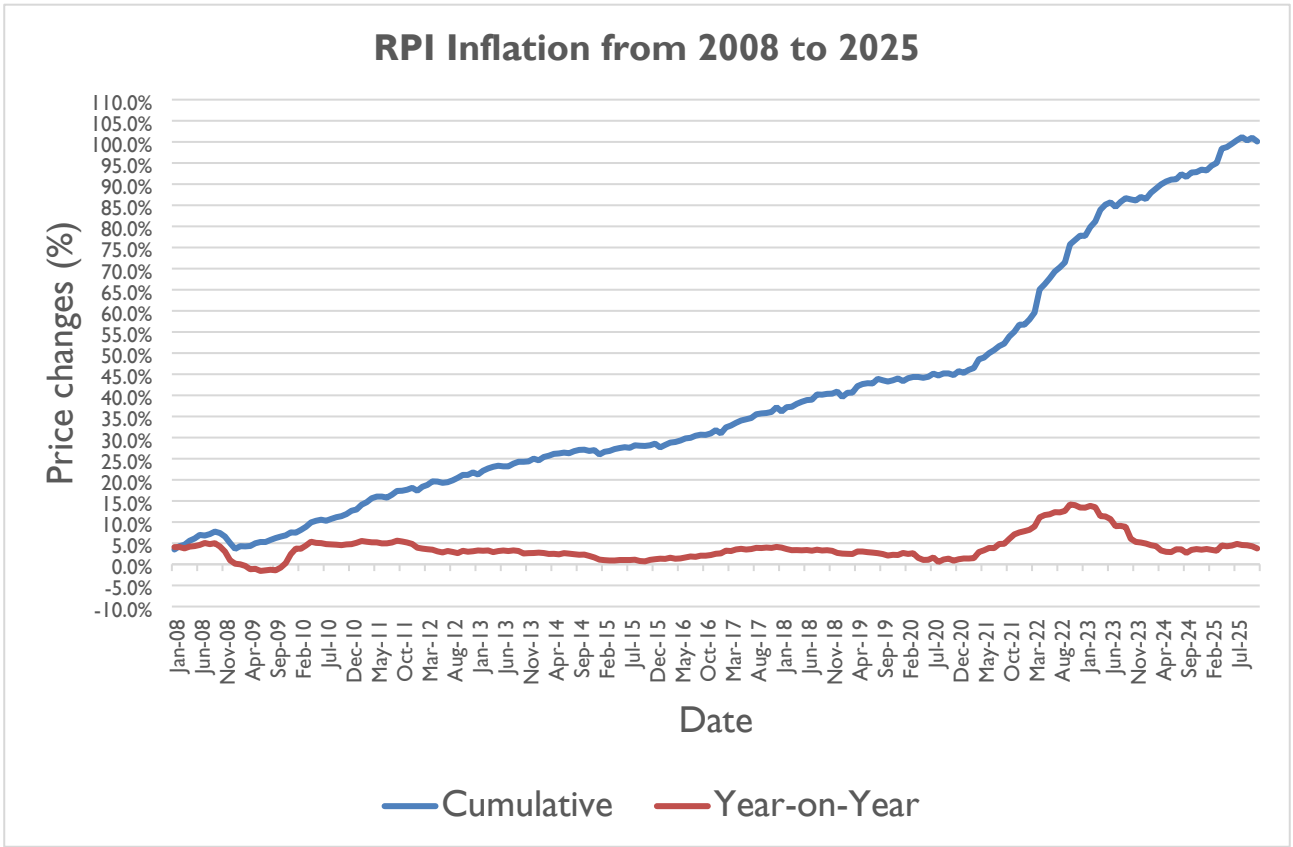

Chart 1:Inflation since 2008

4.7 The proposed council tax levels (borough element) for 2026/27 are set out in Table 3.

Table 3 – Change in Headline Council Tax

Valuation Band	Borough Element 2025/26 £	ASC +2.00% £	Borough Element +2.99% £	Total per Year £	Council Tax +4.99% p/wk

H	3,042	+61	+91	+152	+291p

Local Council Tax Support

4.8 Council Tax Support is a scheme to reduce Council Tax bills for residents on a low income. The maximum level of support for pensioners is 100% and for all working age claimants is 80%.

GLA Precept

4.9 Table 4 shows the GLA precept for 2026/27 - an increase of 4.1% (subject to agreement by the London Assembly meeting on 26 February 2026).

Table 4 – GLA Precept

Valuation Band	GLA Precept £	+4.1% GLA £	Pence Per Week

H	3,194.36	1021.02	4,215.38

Gloucester Circus

4.11 In relation to the Town Gardens Protection Act 1863, the borough is required to raise the sum calculated herein, to maintain the enclosed garden at Gloucester Circus by an addition to the council tax payable by the residents in the properties concerned. The amount of levy required for 2026/27 is £15,357. This can be raised by the additions shown in Table 6, to the council tax of the properties concerned.

Table 6 – Gloucester Circus addition to Council Tax

Valuation Band	2025/26 £	2026/27 £
A	100.08	102.30

G	250.20	255.75
H	300.24	306.90

Resolutions required by Legislation

4.12 The specific council tax resolutions required are set out in Appendix B.

5 .0 Schools Related Funding

5.1 On 17 December 2025, the Education and Skills Funding Agency (ESFA) published the initial Dedicated Schools Grant (DSG) funding allocations. The initial allocations of the Dedicated Schools Grant funding in 2026/27, are set out in Table 7.

Table 7 – DSG (Initial) 2026/27 (£m)

Dedicated Schools Grant	25/26 Original Funding	25/26 Adjusted Funding	26/27 Initial Funding	Change
Schools Block	301.0	301.0	308.3	7.3
Central Block	3.4	3.4	3.4	0.0
High Needs Block	77.0	76.9	80.3	3.5
Early Years Block	57.8	57.1	67.1	10.0
Total	**439.2**	**438.4**	**459.2**	**20.7**

5.2 Overall there is a net increase in DSG of £20.7m (4.7%) with the Schools, High Needs and Early Years blocks seeing cash rises.

5.3 The Central Block has remained the same. This is due to a combination of historical reductions of 20% annually and the rolling in of the 2 grants which was provided separately in 2025-26. The grants are National Insurance Contributions (NICs) grant and the Schools Budget Support grant (SBSG). The allocations are in respect of centrally employed staff.

5.4 Funding for this block continually sees a reduction year on year for historical commitments. The block provides funding for local authority functions such as planned maintenance and the virtual school. This in turn increases pressure upon the MTFS.

5.5 The Authority continues to find various efficiencies and savings to absorb the current reduction in Central Block funding. It was proposed that the main efficiencies and savings may be achieved in the School Interventions and Targeted Support service areas.

5.6 A combination of the following will continue to be applied in 2026/27:

- Reducing costs by increasing efficiency and restructuring services.
- Terminating services that are no longer required.
- Transferring costs to other DSG blocks. These are costs that can legitimately be funded by either the DSG Early Years or High Needs Block.

5.7 The School Block has increased by £7.3m (2.4%). In 2026/27 funding previously received as grants will now be allocated through the School Block and has contributed to the increase. The 2 grants which have been amalgamated within the Schools Block are the:

- National Insurance Contributions (NICs) grant
- Schools Budget Support grant (SBSG)

5.8 The initial Schools Block allocation is based on the October 2025 census pupil numbers. There has been a significant drop in pupil numbers, and this has also contributed to the change in funding. The 2025-26 pupil number was 38,732, compared to 2026-27 pupil numbers of 37,631. The reduction of 1,101 combined with the addition of the grants has contributed to the 2.4% increase.

5.9 The high needs block allocation for 2026-27 is £80.3m. This is currently an increase of £3.4m, which is 4.39% increase on the 2025-26 allocation of £76.9m. The allocations outlined above are before SEN recoupment and will be subject to change.

5.10 The 2026–27 allocations will include funding that schools previously received through separate 2025–26 grants, such as:

- The Core Schools Budget Grant (CSBG)
- Funding for places in special units and resourced provision from:

- The National Insurance Contributions (NICs) grant
- The Schools Budget Support Grant (SBSG), converted to a full annual amount

5.11 Allocations will also incorporate updated funding for special units and resourced provision based on 2026–27 place numbers.

5.12 Subject to agreement by the Schools Forum, due to meet on 14th January, a further transfer of 0.5% of the Schools Block funding will be made to the HNB. This equates to £1.541m and would be used to assist in the current demand pressures within the HNB.

5.13 The increased funding within the HNB will enable the council to access the right educational provision and address educational inequalities for those with SEND.

5.14 The funding for the Early Years Block has increased by £10.0m, 17.6%. The increase in Early Years (EY) funding relates to the following early years entitlements:

a. the 30 hours entitlement for eligible working parents of children from 9 months to 2 years old. This funding now includes the full year effect.
b. the 30 hours entitlement for eligible working parents of 2-year-old children. This funding now includes the full year effect.
c. the 15 hours entitlement for disadvantaged 2-year-olds.
d. the universal 15 hours entitlement for all 3 and 4-year-olds
e. the additional 15 hours entitlement for eligible working parents of 3 and 4-year-olds

5.15 LAs must plan to pass through at least 97% of their EY funding from the government to early years providers for each of the above entitlements. The remaining 3% expenditure can be used for funding central services including special educational needs and disability (SEND) services. The increase in the pass-through rate will inevitably mean budget pressures with the remaining 3%, whilst still hoping to provide support services.

6. Statement under s25 of the Local Government Act 2003

6.1 Under s25(1) of the Local Government Act 2003, the s151 / Chief Finance Officer is required to include in the budget report their view of:

- the robustness of the estimates made for the purposes of the budget calculations
- the adequacy of the financial reserves.

6.2 In turn, under s25(2), the authority, in taking budget decisions, shall have regard to this statement.

Robustness of the Budget Estimates

6.3 The MTFS is a continuous process and the journey ending with the production of this report was started almost immediately upon completion of the equivalent report in 2025. Estimates are made at various points along the journey and these are reviewed and tested as time moves on to ensure they are still valid. They are still estimates and / or evidence of a plan that exists at a point in time, but which may or may not come to fruition for a variety of factors and could be within or outside of the council's influence or control. These estimates cannot give guaranteed assurances, but give Members reasonable assurances that the budget is set on the best available information, evidence and data.

6.4 The process for developing the MTFS starts with the estimated gap set out in the latest report (usually the budget report) and updated from there for economic, demand, price and other relevant factors, in consultation with departments. In this context the budget presented for approval includes estimates about inflation, contractual uplifts, demand growth, additional income, fees and charges, changes to Government funding streams and potential savings and efficiencies.

6.5 Whilst the Director of Resources ensures that the overall process drives forward, it is a collaborative effort including, the Lead Member for Finance, Resources and Social Value, the Leader, the Chief Executive, members of Cabinet, the Greenwich Management Team, senior officers and heads of service. Scrutiny provides pre decision review of the proposals. Each initial case for a proposal was taken through a process, which included numerous Greenwich Strategic Leadership Team (Cabinet and Greenwich Management Team) meetings, where members and officers worked together to challenge and develop the ideas.

6.6 The revenue impact of capital decisions have been reflected within the MTFS. New schemes within the capital programme are likely to be financed by borrowing, which in turn puts additional pressure on revenue. The Strategic

Asset Review will continue to seek and identify ways to deliver material improvements to the council's financial position by way of:

- increasing rental income to market levels where possible
- rationalising and optimising use of property assets
- disposal of property assets to
    - reduce maintenance costs
    - generate a capital receipt which can in turn be used to
        - fund capital investment
        - repay debt
        - resource Flexible Use of Capital Receipts initiatives

      which themselves provide long term revenue savings

Risk

6.7 The requirement to set a balanced budget is set out in sections 31A and 42A of the Local Government Finance Act 1992, as amended. This report is bridging an original budget gap of £45.1m in the financial year 2026/27.

6.8 Directors have agreed the savings and will continue to track delivery as part of the budget management reporting to Members.

6.9 Two of the largest risks in the council's Strategic Risk Register are the MTFS and the Net Zero Climate ambition – the latter is neither costed or funded and will have a substantial impact on the costs incurred by the council over the coming years. Other significant risks include meeting the demand and complexity of school places and the risk of a cyber security or data breach. All of these risks are being managed and monitored within the Strategic Risk Register, however they are all impacted by external factors that are not necessarily in the control of the council. The provisional local government financial settlement has eased some, but not all, of the immediate pressure upon the council's budgets. Continued proactive management and mitigation will be required to ensure that these risks are not realised.

6.10 The MTFS has further gaps opening up to more than £101m in the next few years – opportunities to identify and deliver savings will become more challenging in each subsequent budget round

6.11 The use of the risk reserves held by the council to underwrite significant risks continues to underpin the council's prudent approach to ensuring that services can be maintained and financial risks mitigated in the face of

immediate inflationary pressures, whilst also taking account of the need to maintain appropriate levels of reserves to support the council's financial sustainability and future investment.

6.12 The MTFS is a continuous process, to maintain financial stability for the council. The next MTFS update is due in Summer 2026.

Reserves

6.13 Reserves are one off in nature and once used, they are gone. Reserves are generally held for three reasons:

- a working balance to help cushion the impact of uneven cash flows and avoid unnecessary temporary borrowing – this forms part of general reserves
- a contingency to cushion the impact of unexpected events or emergencies – this also forms part of general reserves
- a means of building up funds, often referred to as earmarked reserves, to meet known or predicted requirements.

6.14 There is no statutory definition of a minimum level of reserves, and it is for this reason that the matter falls to the judgement of the Section 151 Officer. In coming to a judgement on this matter the Section 151 Officer has considered the following matters:

- Risks inherent in the budget strategy.
- Risk management policies and strategies
- Past financial performance against budget
- Current budget projections
- The robustness of estimates contained within the budget.
- The adequacy of financial controls and budget monitoring procedures
- Spending pressures
- Increases in Social Care Precept and council tax.
- Impact of cost of living, energy prices and inflation and other market pressures
- Impact of the economic downturn on council tax and business rates
- Capital decisions and implementation

6.15 As at March 2025, the council held £19m in its general reserve – the unearmarked reserve to cover all unforeseen circumstances beyond those which reserves are held elsewhere. The S151 officer considers this to be at the minimum level necessary.

6.16 Earmarked reserves as at March 2025 were £171m. There will have been a degree of utilisation during 2025/26, in particular a call on risk reserves. At Q2, the 2025/26 outturn forecast for the General Fund is showing an overspend of £7.2m. Financial controls have been introduced to address this forecast position, which are beginning to take effect and will be reflected within the Q3 position. Any residual variance after taking corrective action would need to be funded by use of reserves.

6.17 Factors leading to their use, building on top of the risks identified in Section 14 and above are:

- large changes in inflation / interest rates away from projections
- general demand / price / pay outstrips growth in budgets
- further surges in social care / TA
- economic impact upon residents / businesses (ability to pay council tax / business rates / other debts) and the council (effect upon capital projects and realisation of capital resources, which could be substantial in magnitude)
- financial mitigations being ineffective against the risks identified in the Corporate Risk Register

6.18 In conclusion, reasonable assurances can be provided in respect of 2026/27. The Council still has significant budget gaps over the Medium Term from 2027/28 to 2029/30.

7. Available Options

7.1 Options available are:

- do nothing and don't set a Council Tax for 2026/27.

- set the Council Tax for 2026/27.

8. Preferred Option

8.1 Set the Council Tax for 2026/27.

8.2 Setting the Council Tax which is a legal requirement - The requirements to calculate and set a Council Tax are set out in the Local Government Finance Act 1992

9. Reasons for Recommendations

9.1 In considering the relevant factors, the authority has generated a number of proposals to address the matters presented within the MTFS. Risks are outlined in section 6.

9.2 Although other alternative proposals could be made, this report has been scrutinised by the Chief Finance Officer and considered in the light of the requirements of the Local Government Act 2003.

10. Consultation Results

10.1 The consultation this year focused upon five budget principles, set out below in Table 8.

Table 8 – Budget Principles

No.	Budget Principle	Description
1.	Ensuring financial stability	This is the primary principle. The council must live within its means. If funding reduces, spending must also reduce. Every pound spent needs to be carefully managed to ensure it is used in the right way, at the right time, to deliver best value and outcomes for residents. This may require difficult decisions. Without strong financial management, the council risks losing

		control of its finances and its ability to make decisions for the borough.
2.	Protecting everyday services	These are the services used by residents every day, such as bin collections, libraries, street cleaning and parks. The council will do everything it can to keep these services running smoothly and accessible to all residents.
3.	Delivering services that promote independence and ensure safety	The council has a duty to protect and support those most in need, particularly children, older people and adults who require additional care. The priority is to keep people safe, treat them with dignity and help them live independently wherever possible.
4.	Embracing technology and new ways of working	By using modern technology and improving ways of working, the council aims to deliver services that are faster, more efficient and better value for money, while improving the experience for residents and staff.
5.	Using one-off resources to create lasting impact	Where one-off funding is available, the council intends to invest it in projects that create long-term benefits. An example is the £60 million Getting Things Done investment programme, funding improvements over five years including fly-tipping, safety and other community priorities.

10.2 A total of 385 responses were received, which is just short of 100% increase relative to the consultation undertaken as part of the development of the MTFS last year. The consultation was undertaken online and via post with a view to maximising the response.

10.3 The consultation survey asked residents for their views on the following,

- Understanding of the principles - Residents were asked how easy the principles were to understand, with options ranging from "Very clear and easy to understand" to "Not clear at all".
- Whether the principles reflect residents' values - Residents were asked whether the principles reflect what is important to them in how the council makes budget decisions.
- Comments on the principles - Residents were asked whether they wished to comment on any specific principle or suggest a new one, with space provided for free-text responses.
- Budget priorities - Residents were asked to select priorities for the 2026/27 budget from a list consisting of the following:

    - Being open and transparent about how money is spent and involving residents in decisions
    - Focusing on services that benefit the most residents
    - Improving access to affordable housing and preventing homelessness
    - Investing in children's services, schools, and youth opportunities
    - Keeping streets, parks, and public spaces clean and safe
    - Making it easier to access council services online and reducing waste and inefficiency
    - Making long term savings, even if it means short term changes or extra spending
    - Prioritising support for those most in need, even if fewer people use it
    - Protecting services for vulnerable residents, such as older people and those with disabilities
    - Reducing antisocial behaviour and improving community safety
    - Supporting local businesses and creating job opportunities
    - Supporting people who are struggling with the cost of living
    - Tackling climate change and protecting the local environment
    - Other

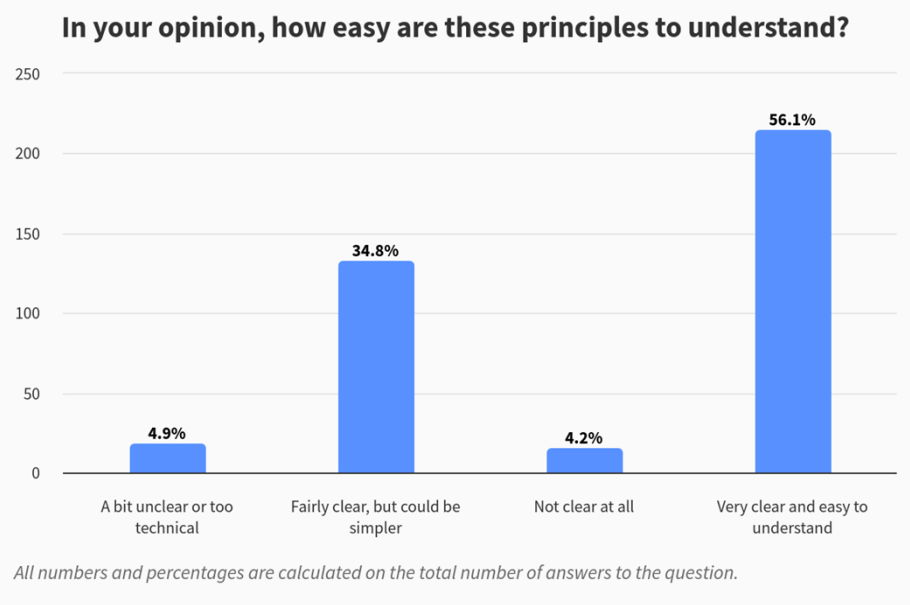

Residents were then invited to provide additional comments.

- Council Tax - Residents were given information on how Council Tax increases work, including the current rules allowing councils with adult social care responsibilities to increase Council Tax by up to 4.99%.
- Council Tax - Residents were then asked whether they agree or disagree with increasing Council Tax, with an option to provide further comments.

10.4 The responses provided some useful feedback albeit that the sample size is small relative to the overall population of the borough.

10.5 Understanding of the Principles - The majority of respondents, 57% (200), find the principles very clear and easy to understand, while 34% (119) think they are fairly clear but could be simpler. Only 5% (18) find them a bit unclear or too technical, and another 5% (16) do not find them clear at all.

Chart 2 – Budget Principles

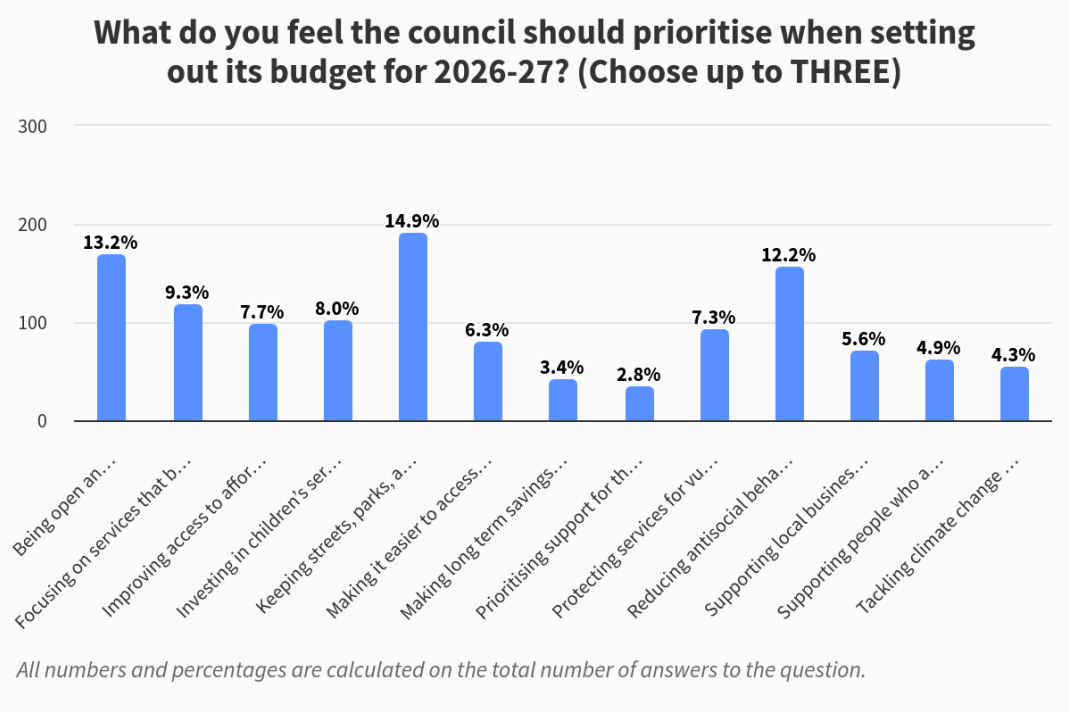

This positive response was by supported by a similar response to the question about whether the principles reflect what is important to them. The majority of respondents felt the principles either reflected very well (17.8%) or fairly well (56.7%). When asked whether respondents wished to comment further the largest response (38.4%) reflected that they had no further comments to make. Where comments were made they reflected views about the council's prioritisation of service provision including,

- The frequency of waste collections.
- Whether it was possible to have a greater police presence.
- The incidence of fly-tipping
- The risk of excluding people, especially the elderly, as a consequence of increasing use of technology.
- Further communication about the use of resources and their impact.

10.6 Budget Priorities – There was a wide spread of opinions expressed about where respondents felt budget priorities should be, Chart 9 below reflects this range.

Chart 3 – Budget Priorities

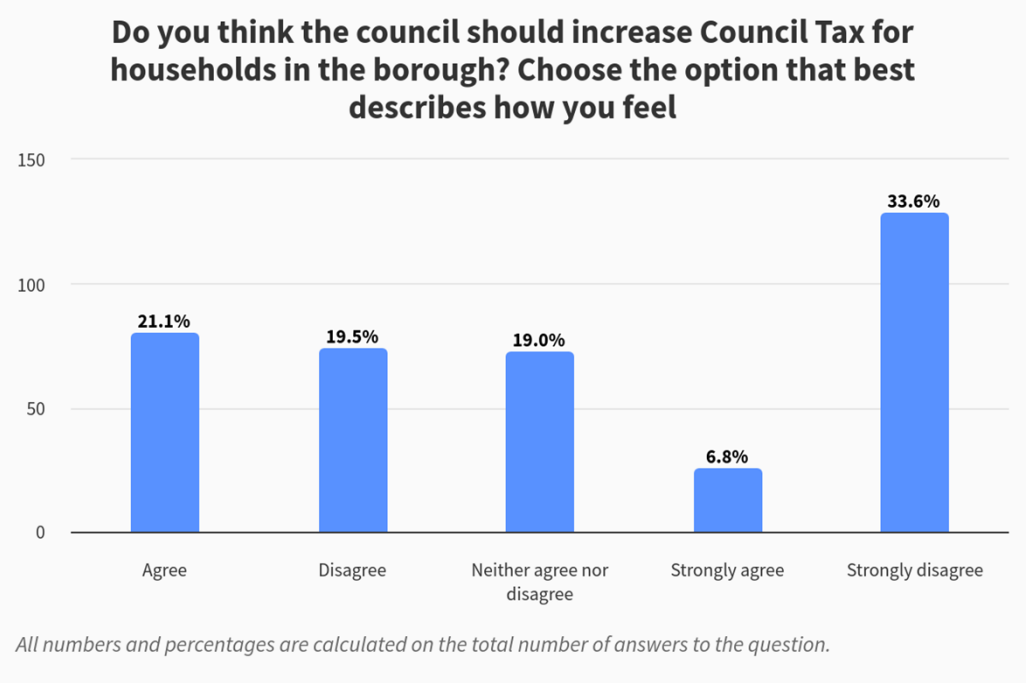

The number of respondents to make comments on this area was relatively low, with only 111 people adding a comment. The comments covered quite a range of issues, with some quite specific whilst others were not directly linked to the council's responsibilities e.g. referring to the police service. Themes emerging from these responses were around expectations of communication, engagement and linking service developments to impact and value for money.

10.7 Council Tax – When asked about whether Council Tax should increase there was a majority disagreeing (183 out of 384 responses, 53.1%) with a smaller number (37.9%) agreeing that Council Tax should rise and 19% being undecided. This provides a counter-point to the responses provided to other

consultation points whereby respondents reflected the importance of service quality and improvement and consequently reflects the challenge of local government financing.

Chart 4 – Views on the level of Council Tax

Comments linked to this question linked to broader questions about the funding of local government as a whole, communication about how funding is used and previous comments about perceptions of service delivery.

10.8 The Local Government Finance Act 1992 requires billing authorities to undertake consultation with "persons or bodies appearing to it to be representative of persons subject to non domestic rates under s43 and s45 of the 1988 Act as regards hereditaments in the authority's area" as part of the budget setting process. This has been undertaken as part of the public consultation process.

11. Cross Cutting Issues and Implications

Issue	Implications	Sign-off
Legal including Human Rights Act	This report reflects the Council's statutory obligations in setting a balanced budget. The report also meets the duty to report to the Council on the robustness of the estimates provided and	Davidaire Horsford Head of Legal Services 05 January 2026

	the adequacy of the financial reserves in place in line with section 25 of the Local Government Act 2003. The requirements to calculate and set a Council Tax are set out in the Local Government Finance Act 1992 and are detailed in the report. The Local Government Finance Act 1992 requires billing authorities to undertake consultation as set out in paragraph 10 above. The law requires consultation to be undertaken when proposals are still at the formative stage and sufficient time and reasons are given to those being consulted to enable them to provide a meaningful response and for those responses to be considered as part of the decision making.	
Finance and other resources	This report is authored by the Director of Finance and there are no other financial implications arising.	Alistair Rush – Interim Deputy s151 Officer 5th January 2026
Equalities	Decision-makers are reminded of the requirement under the Public Sector Equality Duty (s149 of the Equality Act 2010) to have due regard to (i) eliminate unlawful discrimination, harassment, victimisation and other conduct prohibited by the Act, (ii) advance equality of opportunity between people from different groups, and (iii) foster good relations between people from different groups. The decisions recommended through this paper have a low relevance to the substance of the Equality Act. Proper regard has been given to equalities considerations and after careful analysis	Alistair Rush – Interim Deputy s151 Officer 5th January 2026

	on the impact of the proposals it is clear that there are no equalities issues arising because there are no specific service adjustments proposed as part of this report and the proposed percentage increase to Council Tax is the same across all bands. This report makes no direct contribution to the Council's Equality and Equity Charter and the Council's Equality Objectives 2020-2024.	
Climate change	This report does not make any direct contribution to the Greenwich Carbon Neutral Plan agreed by Cabinet 18 November 2020	Alistair Rush – Interim Deputy s151 Officer 5th January 2026
